SLUMP AT NEW YORK

The Stock Market Was Panicky and Prices Took a Tumble.

Rumors Concerning Banks Used by the Bears to Hammer Certain Shares-Local Grain Market Lower.

At New York yesterday money on call was easy at 1@11/2 per cent., the last loan being made at 1; closing at 1 per cent.

Prime mercantile paper, 31/2@51/2 per cent. Sterling exchange weak, with actual business in bankers' bills at \$4.85\\@4.85\\2 for demand, and \$4.83\\alpha 4.83\\alpha for sixty days; posted rates, \$4.84\2014.87; commercial bills,

at 67% per ounce. The total sales of stocks yesterday were 258,300 shares. The temper of the share black skunk, \$1.25; medium mink, 80c; small mink, 50c; black skunk, \$1.25; half stripe skunk, 80c; speculation on the Exchange, which at the close of the old year was buoyant, had changed materially at the opening of business on the first secular day of the year. There was a heaviness in the initial dealings which bode no good to values, and as the day advanced the depression increased, the late dealings being more panicky and feverish than at any time during the day, Among the causes which led up to the break in prices was the circulation of a report that a well-known trust company was in trouble, and this was magnified into a rumor · that several financial institutions were on the verge of bankruptcy. The basis for the original story is found in the fact that one of the lesser financial institutions of the city, which has been known to be weak for some months past, is likely to go into liquidation as a result of the annual examination of its affairs by the State

banking department. But there is no other known or even suspected weak spot in this financial center, and no alarm is felt in local financial circles in regard to the stability of the city's moneyed institutions. Special causes were at work too in several stocks, which served the purposes of the short interest in depressing values. A furious drive was made on Sugar on a report that the ways and means committee had agreed upon an amendment to the bill adverse to the interests of the company, and the bears also used the decime in the price of refined sugar to depreciate the shares of the sugar company. As a result Sugar common broke 4% and the preferred 44, the former recovering %. New England sold down 2% per cent., of which ½ was recovered in the final dealings. London was in the market as a seller of St. Paul and L. & N., the latter losing 11/2 per cent. at the opening and then recovering 3, only to make a further drop of 2 per cent., but closing at a recovery of % per cent. St. Paul was forced down on reports of continued decreased earnings for the fourth week in December, which will be published Thursday. A decline of 1% was re-corded, of which ¼ was recovered, the other granger shares, Chicago, Burlington & Quincy and Rock Island receding 1%, and Northwestern, 1% on the day. Distilling suffered from a raid induced by the ease with which other property succumbed to attack, breaking 2½ per cent., but there was strong buying by insiders during the afternoon, which rallied the shares 2 per cent., another drive caused a reaction of 14, of which % was recovered at the close. Atchison was strong in the morning on assurances that the reorganization plan will not include a stock assessment, and an advance of ½ per cent. was recorded. This was followed by a decline of 1½, and in the late trading by a rally of ½. The general market was feverish during the day. with frequent fluctuations and closed with a decidedly heavy tone, the leading declines not already noted being: Central Pacific, 3%; New York Central, 2%; National Linseed, 2; Missouri Pacific, Manhattan and C., C., C. & St. L., 1%; Chicago Gas, 1%, and Western Union and Susque-

ville & New Albany preferred, 11/4 and Min-neapolis & St. Louis and Hocking Valley, The bond market was fairly firm in the morning but was weak in the afternoon. Government bonds were steady. State bonds were inactive.

hanna & Western, 1 per cent. In excep-

tion to the general weakness were Cotton Oil preferred, which advanced 21/2; Louis-

LOCAL GRAIN AND PRODUCE. Trade Opened Fairly Active with Few

Changes in Values. For the first business day of the year, trade opened fairly active. Just now more attention is being paid to settling bills of last year than to making new purchases, but with the wholesale men a belief prevails that money is moving more freely and with this business is to gradually improve. In prices there were no important changes, it being most too early to affect prices through overstocks, or a desire to raise money promptly. It is stated last year's bills are being paid fully as well as had been looked for. Eggs go off 2c and or-

GRAIN OFF IN PRICE

Wheat Down 1 1-4c at Chicago, Corn 5-8c and Oats 3-8c.

Mess Pork and Lard Higher-The Cereal Market Affected by an Increase in the Visible Supply.

CHICAGO, Jan. 2.-Wheat dropped 14c to-day and closed ic lower than on Saturday on the increase in the visible supply and reports of an increase in the Indian and Argentine crop. Corn lost %c and oats %c. Pork and lard closed higher and May ribs unchanged.

A good sized batch of New York selling orders were the opening feature of the wheat market, and May started at 1/4c loss, opening at 65%c. Local operators sold heavily and prices began to slide down. Cables were rather encouraging, Liverpool being quoted firmer, with a better tone. Receipts were moderate. Chicago received 84 cars, Minneapolis 554, and Duluth 93 since the previous report, but these slightly bullish influences were not sufficient to stop the downward course of prices. It was reported that the Indian wheat crop of 1894 would exceed last year's and that the Argentine crop was also larger than last year. This caused more selling, and when the visible supply figures were complete May struck bottom at 64%c. It had been confidently expected that the report would show a decrease, but instead it increased 204,000 bushels. There was but one reaction of any note after the visible report was known. It was caused by a Russian dispatch telling of the exposed condition of the Russian wheat, and May advanced 1/2c. But its effect was soon lost, and May ended the day but 1/4c above the bottom tigures of the session. May opened at 65%c. sold down %c, rallied %c, lost %c, rallied %c, lost %c and rallied %c to close at 65%c. Corn was weak and lower. The visible supply showed an increase, receipts were heavy and 1,116 cars were estimated for tomorrow's receipts. The weakness in wheat was also a depressing influence, and the favorable weather added in depressing prices. May opened 1/8c lower, at 383/4c, sold down 1/8c to 381/8c, and rallied 1/8c, to close but that much above the day's bot-

tom figures, 384c. Oats were lower in sympathy with the weakness in wheat and corn, and trading was light. The buyers of Saturday were the sellers to-day, and prices suffered accordingly. May opened %c lower, at 30%c, sold off %c, and rallied to close at 30%c, but 1/8c above the day's lowest figures. Provisions opened firm on continued light

hog receipts and frm prices for live hogs. The early advance was partially lost in a decline caused by the reakness in the grain markets. Compared with Saturday night January pork is 10c higher, January lard .021/2c higher and May ribs unchanged with January ribs .071/2c lower. The estimated receipts for to-morrow

MINNEAPOLIS, Jan. 2.- The wheat market opened lower and sold down later, rallying a fraction before the closing. Hard wheat brought 61@61½c, and No. 1 Northern 60@60½c, delivered. The closing was; January, 58½c; May, 60¾c; July, 62¼c; track wheat closed: Hard, 61¼c; No. 1 Northern, 59¾c; No. 2 Northern, 58c. Farmers sold more wheat during the past week than had been anticipated, their sales amounting to some 1,300,000 bu. Whether they will sell so much this week is questioned. Sales now are in the older parts of the Northwest, where the early marketings were light. Some of the larger milling concerns report sales in the last week about equaling their output, and the same concerns were large buyers of track wheat to-day. Prices are very steady. The shipments were 36,000 brls for the two days, with the output to-day figured at about 25,500 brls.

Dry Goods.

NEW YORK, Jan. 2.-The new year opens with a more cheerful feeling generally prevalent as to the dry-goods market, based on the knowledge that interior stocks are small and that the price of raw material is at a very low point, giving small opportunity for much further decline, while the possibility of a change for the better is without Wheat-Receipts, 31,400 bu; exports, 120,600 limit. There is considerable looking around for cheap lots. White and brown cotton goods rule quiet, but about steady. Print cloths rule quiet on the basis of 3 cents for extras. Prints and printed fabrics suitable for spring trade are steady and moderately active. There is a moderate supply of orders for ginghams and woven fabrics of the lighter colors. Foreign dry goods rule dull and generally nominal. There are some signs of larger activity in the yarn market, but buyers are naming low prices. The jobbing trade is quiet.
